: The Underwood: Typewriter Underwood .

The popularity of the Underwood rannot be better shown than by the fact that seventy thousand Underwoods have been made and sold during the past three years, during which time we have manufactured the Models 3. 4, and 5. The Underwood Typewriter Co. has now been established in Washington for six years and many thousand machines have been sold here, but you will find fewer Underwoods on the second-hand market than any other make of machine. This certainly speaks well for its wearing qualities.
